

BEST PRACTICE SAFETY BEHAVIORS

WHICH REDUCE INJURIES

01

Spend time with your team members and help them identify the problems, before they arise.

02

Don't turn a blind eye a safety, even when you are running behind your schedule and under pressure.

03

Regularly discuss ways to improve safety.

04

Make sure to praise and reward safety behavior.

05

Welcome and listen, when your employees report safety problems and incidents.

06

Educate your employees on the importance of safety.

07

Provide constructive feedback for unsafe behaviors.

08

Be fair and don't allow double standards.

09

Often visit your workplace and observe your employees safe behaviors.

10

Engage your employees in solving safety problems.

11

Continually encourage employees to work safety.

12

Talk about your beliefs on the importance of safety.
